

Mosshemmet is the camp site of the Covenant Church in Eksjö. The aim is to give people of all ages an opportunity to experience the nature and the presence of God.

THE CAMP SITE OFFERS

- Beautiful scenery
- Ideal camp site, for up to 500 people
- Nearby swimming and canoeing
- Areas for soccer and volleyball
- Shelters for outdoor camping
- Camp fire sites
- Nonalcoholic environment

HISTORY

The cottage Mosshemmet was built in the end of the 19th century. Already in the beginning of the 20th century christian services took place in the cottage. Sunday school classes started up in 1917. In 1968 the Covenant Church of Eksjö purchased the property and activities for children and youth have been arranged at Mosshemmet since that time.

Cottage

Containing 2 rooms and a kitchen (not fully equipped). The cottage has electric heating. The ground floor may be used for overnight sleeping, 20 people maximum.

Log-built shelters

There are 5 shelters with their own fireplace.

Barn (Ladan)

Large room containing approx. 150 people. No heating available.

Cowshed (Lagår'n)

Service rooms including simple kitchen, cold-storage room and freezers.

Toilet buildings (Hemlighusen)

Containing 2 washrooms, 10 showers, 8 environmentally friendly toilets and one urinal.

Cabins

Two cabins with electric heating and a fridge, one containing 3 beds and the other 4 beds.

How to find Mosshemmet

From Eksjö, take the road 32, direction Vetlanda. Turn right at the sign Prostorp and then to the right again at the next sign to Prostorp. Approx. 2 km later, turn right at the sign MOSSHEMMET. 800 meters later you will arrive to the camp site.

INSTRUCTIONS FOR CAMP ACTIVITIES AT MOSSHEMMET

- Firewood** Firewood for camp fires may be collected from the firewood storage, subject to availability. At larger camps the tenant is responsible for all firewood supply. Left-over firewood is placed in the storage place behind the barn. Left-over wood from the camp constructions is piled up on the spot between the barn and the upper shelters.
- Swimming** The nearest bathing spot is at Mossgölen, 700 meters from the arrival portal. The water contains a lot of humus. A clearwater bathing spot is situated approx. 3 km away, by the lake Södra Vixen.
- Toilets** For environmental purposes, the toilets are urine separated. For that reason also boys/men need to sit down while urinating. Plastic materials must not be thrown in the toilets. At least one extra toilet roll should be in place in each of the toilets, on the holder. Alcogel for hand cleaning should be placed by each washingbowl. Night time lighting is turned on by a switch above the central toilet room.
- Electricity** For any electrical breakdowns which can't be easily solved – call the advised person in charge!
- Camp fires** Camp fires on the ground are only allowed at certain marked spots at the camp site and in front of the shelters. Arrangements for fire extinction have to be made before lighting a fire.
- Compost** If you bury your compost, you must do so in a way that neither wild boars nor foxes will find it.
- Refridgerators** Refridgerators and freezers are turned off, with doors open. Turn on the switches by arrival if you need to use them. Restore everything before leaving.
- Keys** The keys will be collected before admission and returned directly after completion of the rental. The keys to the cabins have a separate keyring.
- Garbage** The tenant is responsible for all disposal of garbage.
- Cleaning** The tenant is responsible for returning the buildings in the same condition as at admission. Outdoor areas has to be cleaned from garbage. Dug compost pits should be covered by turfs. Cleaning equipment for the cottage is stored in the kitchen. For the other buildings the equipment is stored by the showers.
- Water** There is running hot and cold water in the cottage, in the barn kitchen and the showers. There is running cold water at the toilet rooms.
- Shelters** There are 5 shelters in the area. Two of them are at the same spot. In front of each shelter there is a fire place. Care for sufficient water supplies if making a fire, even for extinction of accidental fires.
- Inspection** The electric heating in all cabins and all water heaters must be switched off before departure.
Before leaving after camp the tenant and landlord will inspect the area.
